Allowable Subject Matter

1. Claims 1-9, 16-33, and 40-54 are allowed.
2. The following is an examiner's statement of reasons for allowance in combination with other claim limitations:

Independent claims 1, 16, 22, 28, and 40, when considered as a whole, are allowable over the Prior Art of record. Specifically, the Prior Art of record fails to teach that the processing system for generating the presentation of the time-based stream of information comprising the user interface having functionality to display on the screen only the single graphical representation of the time line including the video and audio time line overlapped with each other and synchronized in time, wherein the time line is selectable via the video selectable tab and the audio time line via the audio selection tab different than the video section tab, wherein when the video selection tab is activated, the video time line is displayed without displaying the audio time line, wherein when the audio selection tab is activated, the audio time line is displayed without showing the video time line while the audio and video time lines are still synchronized in time, wherein the single graphical representation of the video time line including the plurality of references, each reference corresponding to the visual time based stream of information, each reference including the description, wherein at least two of the references are to be positioned in the presentation, and wherein each reference is displayed in the form of the still image of the frame in the corresponding visual time based stream of information, displaying the single graphical representation of the time line on the screen according to the user interface,
